## REDUCE SHOPLIFTING

### IN YOUR STORE WITH AI

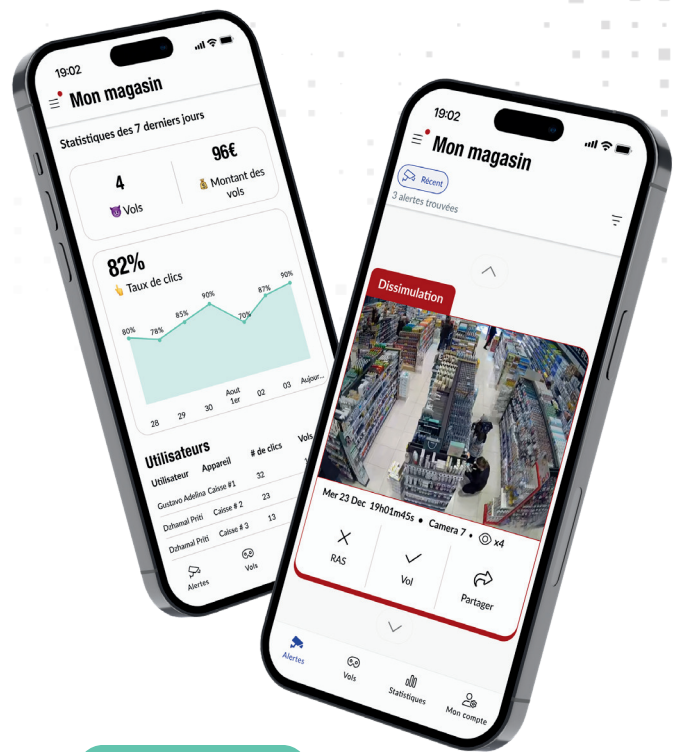

**Veesion is an AI solution designed to help reduce shoplifting, enabling all stores to boost security agents' productivity and enhance the shopping experience. We offer an easy-to-use solution that integrates seamlessly with existing camera systems, providing a powerful tool for store owners and managers.**

#### DID YOU KNOW?

Shoplifting is on the rise. In 2023 alone, shrinkage increased by **19%**, costing retailers **\$120 billion worldwide**. Traditional methods detect **less than 5%** of shoplifting incidents.

#### KEY BENEFITS

- 6+ years of R&D and 4,000+ retailers
- 10+ detectable suspicious gestures
- Customizable to each store
- Comprehensive dashboard

#### KEY FEATURES

##### PLUG & PLAY

Plug in your Veesion server and download the app and you're ready to do.

##### CUSTOMIZABLE

Setup Veesion so it fits your store's needs. Select which gestures and cameras you want to analyze.

##### MOBILE APP

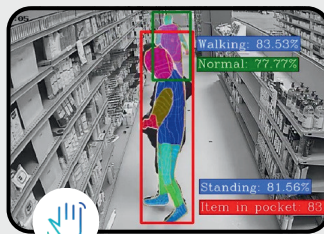

Receive alerts in real-time, add an unlimited number of team members, and monitor your statistics.

#### HOW IT WORKS

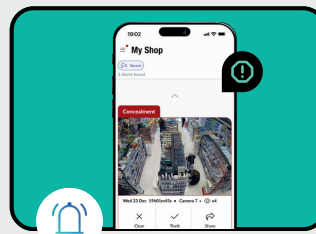

##### ANALYZE

Video surveillance:  
Continuously monitors  
all connected cameras.

##### DETECT

Suspicious gestures:  
Identifies and flags  
unusual behavior.

##### ALERT

Sends real-time video  
alerts to your team.

”

*It is an investment  
that pays off.  
Thanks to Veesion,  
I didn't lose \$2,800.*
